W Y O M I N G

DRIVING FOR CHANGE

“The tenacious moms in this program showed incredible grit! They have fought poverty with everything they’ve got so that they can gain financial stability for their families.

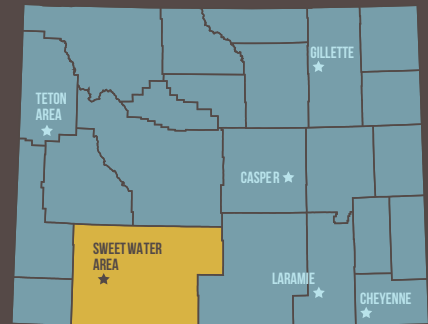

“I love the person I am becoming. All I have ever wanted to be is the person I see in the mirror today.”

— Danielle, Program Participant

This ‘go get ‘em’ attitude really shined in the truck driving training. Some had never driven a stick shift, but they all jumped into driving and loved it. They now have the tools to turn their fierce determination into positive life change.

Their skills driving all different kinds of trucks, from propane trucks to sand haulers, are filling really critical job gaps in our community.”

— Brittany Gray, Sweetwater Program Director

10 MOMS & 24 CHILDREN
served in the program
